

Managing Cases in Infection Prevention and Control (IPC)

In Infection Prevention and Control (IPC), you can create, view, and update infection cases.

Steps

To create a case

1. Do one of the following:
 - Clinical > Infection Control.
 - Multi-facility: Management Console > Dashboards > Infection Control.
2. Click **CREATE CASE**.
3. Complete the fields as required.

Note

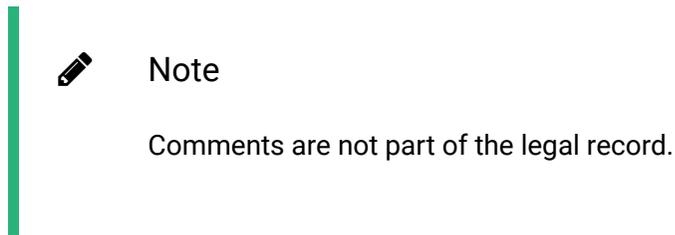

The Infection fields are based on Centers for Disease Control and Prevention (CDC) guidelines.

4. Click **SAVE**.

To update a case

1. Clinical > Infection Control > Case List.
2. Click a **case row** to open the Quick view.

3. Edit the Status or click the **pencil icon** to edit a section.
4. Complete the fields as required.

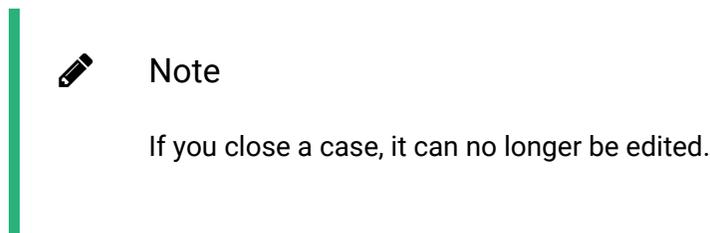

5. Click **SAVE**.

Options

Below is a list of the options available to you.

- **Status** - Select option.
 - **Suspected** - Infection is not confirmed.
 - **Confirmed (P)** - Confirmed by the provider.
 - **Confirmed (D)** - Confirmed by diagnostics.
 - **Closed** - After selecting **Closed**, select the reason. For example, Resolved, Discharged, or Deceased.

- **Additional information** - Click the **arrow** to expand and view diagnosis and treatment information and Centers for Disease Control and Prevention (CDC) guidelines.
- **Case details** - Click the arrow to expand and view audit details.
